Interest rate and Annual Percentage Yield\* (APY) stated above are accurate as of 04.01.2019 We reserve the right at any time to require not less than 7 days written notice before any withdrawal from an interest bearing account. The interest rate and APY may change at our discretion. We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day. Interest will be compounded and credited each statement cycle. Interest begins to accrue no later than the business day we receive credit for the deposit of noncash items (for example, checks). During any statement cycle you may not make more than six withdrawals or transfers to another account of yours or a third party by means of preauthorized or automatic transfer or telephone order or instruction, computer transfer or by check, draft, debit card or similar order to a third party. Fees or withdrawals may reduce earnings. If you close your account before interest is credited, you will receive your accrued interest.

No minimum required to earn interest
